

Home working – Year 7

This work is designed to last for weeks commencing Monday 1st June and Monday 8th June

The work now includes videos featuring teacher instruction. These are all in the All Resources folders or available via direct links in this document.

Some 'videos' are PowerPoint files. Just start the presentation (press F5) and you should hear your teacher talking. You may also need to press the Play icon. Others are a variety of file formats. We recommend downloading and installing the free VLC player which is compatible with most formats:

<https://www.videolan.org/vlc/index.en-GB.html>

Art, food, textiles and media have 4 weeks' worth because some pupils will be at different stages of a rotation.

Subject	We recommend starting here...	Additional work (for some subjects)
Art	<p>If we were in school right now and you would have rotated to another one of these subjects: Food, textiles, art, media, please can you now pick one or more of these subjects you have not completed work for and find the subject on this document. If you are unclear about any of this, please email csmith@barrbeaconschool.co.uk.</p> <p>If you would be taking sports science in your rotation, please complete the additional work in the PE section.</p> <p>Please also check your Microsoft Teams files as there are resources that have been uploaded.</p> <p><u>Week 4 – 1st June</u></p> <p>Main Task: create your own Zentangle following the steps in the video “Year 7 – Art – 1.6.20” in the folder Art > Y7 > Zentangle 2 week project</p> <p>This website has more examples and instructions on how to make your own Zentangle: https://zentangle.com/pages/get-started</p> <p>Extension Task: use Zentangle patterns as part of a larger art work. Think about which patterns contrast well with each other and which patterns you could use for lighter tones and which you would use for dark tones.</p> <p>The zentangle project word document on the school website has more examples of Zentangle art, follow: Art > Y7 > Zentangle 2 week project</p>	<p><u>Week 1</u></p> <p>Visual Element in Art: https://www.bbc.co.uk/bitesize/topics/z9kmhyc Access the BBC link above and read through the various Visual Elements in Art.</p> <p>Task 1 Create a poster on the Visual Elements Line and Tone. Try to include key vocabulary and images. Also try to practice the technique.</p> <p>Task 2 Create a poster on the Visual Elements Shape and Pattern. Try to include key vocabulary and images. Also try to practice the technique</p> <p><u>Week 2</u></p> <p>Activity - Find an object that is part of your identity (hairbrush, games console, etc) and observe and draw. Follow the steps below when completing the task: 1. Complete the outline - Use a pencil to lightly draw the outline of your object</p> <ul style="list-style-type: none">• Scale (think about the size of the object. Which part is the biggest)• Proportion (look at the different parts of the object, do they look in scale to one another) <p>2. Add Internal lines - Use your pencil to add any lines you can see inside your outlines</p>

Week 5 – 8th June

The colour wheel

Watch the video “**Year 7 – Art – 8.6.20**” in the folder **Art > Year 7 > The colour wheel**
Make sure you understand the different aspects of the colour wheel and the different techniques for colour blending.

Main Task: Create your own colour wheel and evaluate your work. You can use any equipment and techniques for this task. E.g. paints, colouring pencils, collage. There is a template and a colour wheel information sheet in the same folder as the video to help you.

Send a picture of your colour wheel in over Teams or by email.

- Proportion (make sure you put the lines in the right places and double check)

3. Add shading - Use your pencil to add tone to your drawing. If you finish your drawing and can take a picture, upload it to Microsoft Teams so we can all see your amazing artwork! 😊

- Tone (add light, middle and dark shading inside your outlines)

- Gradient (make sure you blend your tones from light to dark by thinking about the pressure of your pencil on the paper)

Weeks 3 and 4 - Zentangle project

Zentangle is a type of art that helps you exercise your creativity while also helping you relax and take care of your mental health. It is based on splitting images into sections and filling these with various repeating patterns. In this project you will be exploring the visual elements **line, shape, tone** and **pattern**.

Week 3

Task 1: *Research the work of the artists Rick Roberts and Maria Thomas*

These artists founded the zentangle movement. Write a short biography of each artist, select your favourite artwork from each artist and describe the art:

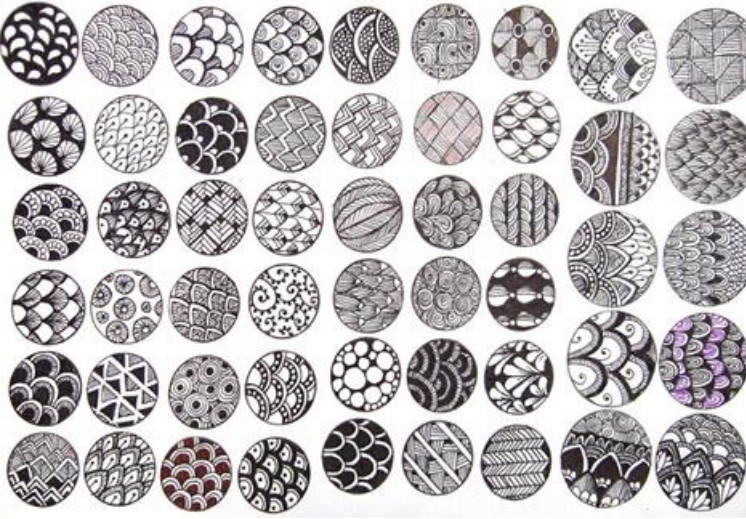

- What materials have been used?
- What can you see in the artwork?
- Which visual elements have been used?
 - What type of lines have they used?
 - Have they used organic or geometric shape or a mixture of both?
- Why do you think the artist made the artwork?
- What do you think about the artwork?
 - What do you like/dislike about it?
 - How does it make you feel?

These websites are a good place to start your research:

INTERVIEW WITH AN EXPERT

Find a "lonely" sock and create a puppet using items you can find in your home.

TIP! Use felt tip markers, bits of wool, buttons, bits of ribbon or material - be **CREATIVE!**

- 1** Start making a "Wacky Character" who is going to be an Expert on a subject.
- 2** Make a list of topics your character can be an expert on.
They can be **REALISTIC** or completely **WACKY!**
For example:
"How to bake bread" **REALISTIC**
"How to train ants to dance in formation" **WACKY!**
- 3** Make a list of questions that you as the interviewer will ask your character.
Will you be yourself? Or are you going to be a different character?
- 4** Rehearse your interview.
- 5** Film your interview and share it with your teacher and friends.

TIP! When filming, you may only want to film one character in the frame at a time, or both.
If you put both in the frame, you may want to try some ventriloquist skills as you become the voice of your puppet.
You can do loads of these! Create a host of interesting characters and practise your accent skills too.

USE YOUR IMAGINATION AND HAVE FUN!
@rotherswaindrama

By completing this lesson, you will also be improving your speaking and listening skills. If you are brave enough, have a go at doing ventriloquism.

As you are developing your puppet think about characterisation.

What accents would you use?

Does your puppet have any phrases that they like to say or mannerisms that they like to do?

Research on the internet what ventriloquism is and see how the performer distracts the audience by keeping the focus on the puppet. You can use your mirror to practise and perform to family or friends via Teams.

Your character should be an expert on a topic of your choice.

Great topics for your interview could be...

Wacky Topics

5-HAVE FUN and enjoy learning about the play through the backstories of the characters.

Extension task.

Remember if you would like to watch live theatre live musicals are still being shown on #TheShowsMustGoOn

<https://www.youtube.com/channel/UCdmPjhKMaXNNeCr1FjuMvag>

Remember your work can be shared to Mrs Wibberley through Teams or by email.

	<p>How to make a smelly cheese. How to juggle making Jelly How to create the perfect flea circus</p> <p>Realistic Topics How to make a fruit salad Creating the perfect pizza Knitting for beginners</p> <p>This can be a comedy or serious, and you can make up your own topics so how you create this is totally up to you!</p>

3. **Skellig Text and Workbook:** Write down all the features of a diary entry.
4. Your task is to write a diary entry about Michael's meeting with the creature for the first time. You need to consider:
 - How would Michael feel?
 - What does he look like to Michael? (You can use your work from last lesson to help you).
 - What atmosphere is created in this moment?
 - What are you going to do about him moving forward?
5. Self- assess your work, have you included:
 - Writing in first person (using 'I')
 - Dear Diary,
 - Included your thoughts and feelings about the creature?
 - A range of punctuation to help show your emotions such as an exclamation mark (!) to show you are shocked or scared.
 - Sign off
 - Write down what you feel you have done well in your paragraphs, and write down what you need to improve next time - which of these bullet points above aren't highlighted very much? That will help you see which skill you need to improve on.

Week 1 - 01/06/2020

Watch PowerPoint first - Complete research to find different types of camera angles (here is a youtube video that might help <https://www.youtube.com/watch?v=lrB7Ce0J0UM&t=2s>). Find out why filmmakers use specific shots or angles and decide what you think they might use them for and how this affects the audience.

Then, watch the Bruce vs. Cake scene on youtube (linked here https://www.youtube.com/watch?v=EOQeU_6vbeg) and identify the different camera angles used and why the filmmaker has chosen to use the different angles in that shot, if you want a challenge decide how using that specific shot has had an affect on the audience.

Week 2: 08/06/2020

Choose your own film clip (this can be a film you have on dvd or online or it could just be a clip that you have found on youtube). Write down the camera angles that have been used in the scene and the effect that using these angles has had on the audience. **See PowerPoint video for ideas.**

Week 3: 17/06/2020

A film production company have approached you and asked you to produce your own horror film. Use your knowledge of camera angles to create your own storyboard for your horror film.

Your storyboard should look something like this and should have at least 6 boxes and a description of what is happening in the scene under each box

Create your own at Storyboard That

Here is an example of how it should look, although you should include colour in yours to make it interesting!

"CS2C: Fun with Storyboards" by Kenneth Chan

Establishing shot of classroom. One student snoring. One sits up in alarm over assignment.

Student feels overwhelmed. Voiceover: "I've never done this!" Camera pans slowly to make space.

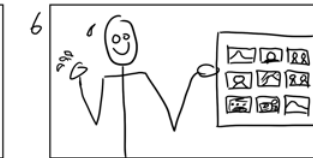

Ideas surrounded by blurry thought bubble. Brainstorm may also be video montage surrounded by blurry frame.

Moment of clarity. "Aha!" Ding or chimes; lightbulb moment.

Working in a dark dorm room. Sounds of clock ticking and pencil scratching on paper.

Proudly shows off finished storyboard. Wipes sweat off brow. Victory music. Zoom in on storyboard.

Submitting via Coursework. Fade out as if ending.

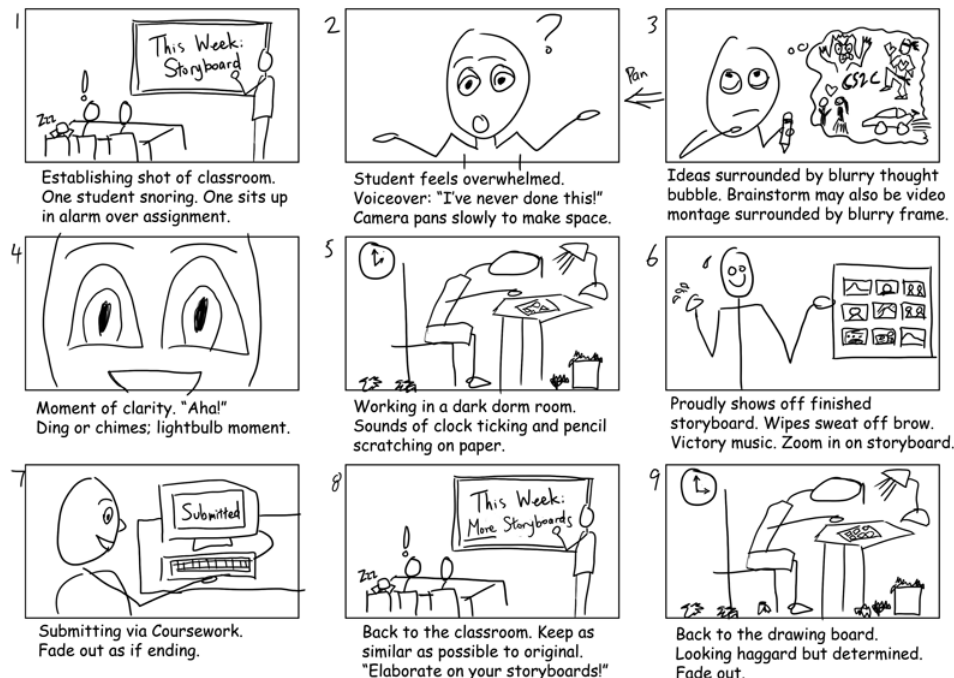

Back to the classroom. Keep as similar as possible to original. "Elaborate on your storyboards!"

Back to the drawing board. Looking haggard but determined. Fade out.

Week 4: 22/06/2020

Finish off your storyboard, ensuring you have filled all boxes, included descriptions and images and included lots of colour!
Evaluate how effectively you have used camera angles and appealed to your audience.

5. Make a workout plan tailored to your specific needs and favourite activities.
EXTENSION- Can you justify why you have picked each exercise and how it is suitable for your chosen sport.

Things to think about when exercising:

How can I make these exercises easier/harder?
What changes are happening to my body before I exercise?
What changes are happening to my body during exercise?
What is happening to my body after exercise?
What muscles have I used by doing this exercise?
Why is it important to warm-up, cool-down and stretch?
What is a HIIT workout?
What is the difference between a HIIT workout and a normal circuit?

Extension:

Pick a skill or exercise that you want to develop, this could be skipping, burpees or any other skill you wish to master. Dedicate some time to improve your technique and efficiency of the exercise (think about some easier and advanced versions you could do)
