Dear Parent / Carer

Further to my recent letter with regard to the overview of support for Year 11, I write again to provide a further update on changes we are making to support your child to achieve their baseline grades for their GCSE and/or BTEC courses over the coming months.

Although, the future of the coming year is still unknown, we must work on the premise that our children will sit terminal assessments. As such, we are having to change our ways of working to ensure that our pupils have the best chances to demonstrate their skills and potential when they are assessed for their qualifications.

Support may be provided during PSHE or core PE lessons, where we may provide additional targeted teaching for subjects to help your child to meet their baseline grades. Pupils will be informed of this individually.

In addition, pupils can support their own learning by using the online learning resources <https://barrbeaconschool.co.uk/revision-resources/>

Revision sessions are also available after school. The programme can be found here: <https://barrbeaconschool.co.uk/extra-curricular/>

I would urge you to encourage your child to access the range of online and school based additional learning opportunities to help them to revise and apply their knowledge as we progress through Year 11.

While some interventions will be long term, some interventions will be short term dependent upon need. I would ask that you support us in using our professional judgement to take any necessary action to support your child.

If you have any questions, please contact [postbox@barrbeaconschool.co.uk](mailto:postbox@barrbeaconschool.co.uk)

Yours sincerely

Ms L Draycott  
Headteacher
