29<sup>th</sup> June 2021

Dear Parents/Carers

As you will have seen from recent news coverage, the number of Covid cases is increasing across the country. This makes it more important than ever for pupils to complete their lateral flow tests twice a week.

It helps us a great deal if **your child completes their tests the night before a school day** rather than on the morning of a school day. This allows us to trace contacts more efficiently and further reduce the risk of viral transmission.

Therefore, we are asking that your child completes their twice-weekly tests on **Sunday and Wednesday evening**.

We know that many of you are doing this already and we thank you for your assistance.

If your child does have to self-isolate, they can of course access live streams of lessons on Teams.

If you need a refresher of anything related to self-testing at home, you can find this information on our website: <https://barrbeaconschool.co.uk/self-testing-at-home/>

Information about schools' role in testing is still emerging and we understand that the government is considering making significant changes to the approach. We will keep you up-to-date about these when we hear them ourselves.

Thank you for your continued support.

Yours sincerely

Ms L Draycott  
Headteacher
