

Curriculum intent: BTEC law will give pupils the opportunity to apply the knowledge they learn to real world examples of the law, enables them to master the skills needed to thrive in the workplace and empower them to make a difference.

Curriculum rationale: Pupils will learn the knowledge and skills they need to become aware of legal systems, processes, and issues in society alongside developing a range of skills and opportunities to explore many aspects of human life. This will enable pupils to develop invaluable knowledge and expertise both professionally and academically for future progression with the ability to make informed choices.
