

YOU SAID, WE DID

Parent Advisory Board - 7th June 2022

Focus	Parents Said	We Did
School Meal - price increase	Acknowledged that the rise in meals was inevitable given the current climate of price increases. Questioned if the same options would be available.	Write to parents to inform all about the necessary increases to £2.10 for lunch meal. Clarify that the breakfast allocation for FSM will be reduced so that spend for lunch is available.
Harmful Sexual Behaviour - updates from questionnaires.	Asked if boys could also be involved in the event so that their voices could be heard. Encouraged repeat the activity to continue to hear the voices of pupils.	Repeat questionnaire to make sure that we are up to date with views, Used different focus groups so that we hear the voices of different pupil groups.
White Paper Update - Focused on the changes to the time of school day to 3:10 and 3:15.	Parents asked if same extra curriculum offer would still be available including homework club.	Confirm that all clubs would still be available for the hour from September 2022.
Curriculum Adaptations to support Yr 11 & 13 pre-exam sessions.	Parents very grateful. Understand the potential disruption as it offers short term loss for impact to greater good. Accept the status quo as they know that their children will benefit when they are in later year groups. Commending keeping pupils in school so that they know how best to revise rather than being at home especially in the light of lock down learning.	Continue with this approach in future exam series to support pupils.
SCITT Recruitment Crisis.	Suggested questionnaires for anyone who exits to ascertain reasons for leaving. Showcase the benefits more widely to being at the SCITT specifically with BBS or even teaching at BBS.	Exit questionnaire reviewed to clarify specific reasons for leaving. Highlight the attractions to training / teaching at BBS using current voice of trainees and teachers.
