Late to School Text Message

Dear Parents/Carers

We would like to inform you of an upcoming change in our school's communication regarding student attendance.

Moving forward, we will be implementing a new system to notify parents if their child arrives at school between 8.40 and 9.10am. This system is designed to keep you informed about your child's punctuality and ensure their timely arrival to school.

If your child is late within the specified time frame, you will receive a text message notifying you of their late arrival. It is essential for us to work together to encourage punctuality and regular attendance, which are crucial for academic success.

However, we understand that there may be instances where parents have already informed the school about their child's late arrival for that day. In such cases, please disregard the text message. We appreciate your proactive communication with the school. To ensure accurate communication, please continue to inform the school if your child will be arriving late due to unforeseen circumstances.

We believe that this new system will enhance communication between the school and parents, promoting a collaborative effort to support our pupil's education.

Yours sincerely,

Mrs K Hibbs
Headteacher
