Introduction of Language Nut Homework-Year 8

Dear Parents and Carers,

Following the successful introduction of Sparx Maths, Sparx Science and Sparx Reader, we are pleased to announce that we will be extending our use of online homework platforms to include Language Nut for Modern Foreign Languages.

Regular practice and retrieval of vocabulary are essential parts of language learning. Language Nut provides pupils with a structured and supportive way to practise vocabulary, reinforce their learning and develop their confidence in using a foreign language.

When will Language Nut Homework be set?

Language Nut homework will follow the same weekly schedule as our other online homework tasks and will be set on a Tuesday, due the following Tuesday by 8:30am. The first task will be set on 3rd November.

This consistent approach will help pupils establish a regular homework routine and ensure that language learning is revisited frequently to support long-term retention.

Getting started with Language Nut

Pupils will have their Language Nut login details reissued during the week commencing 19th October.

During the weeks commencing 19th October and 2nd November, pupils will also be given time in their language lessons to log in to the platform and practise using it with support from their teacher. This will help ensure that pupils are confident accessing the platform and completing their homework independently.

We appreciate your continued support in helping your child develop positive homework habits. The regular completion of these tasks will play an important role in strengthening pupils' vocabulary knowledge and supporting their progress in languages.

Thank you for your ongoing support.

Yours sincerely,

Mrs K Hibbs
Headteacher
